

Whole Body Collagen

HELPS TO REDUCE JOINT PAIN ASSOCIATED WITH OSTEOARTHRITIS
390 G POWDER | NPN80095133 | WBC390-CN

MUSCULOSKELETAL HEALTH

Whole Body Collagen is a synergistic formulation designed to benefit the health of bones, joints, and skin. It contains research-backed collagen peptides derived from specific dietary collagen proteins and produced with proprietary hydrolyzation technologies to optimize their beneficial properties. The unique blend of Whole Body Collagen is supported by clinical research showing its efficacy for collagen production, bone strength, joint health and integrity, and skin elasticity.

Collagen is a special type of protein that accounts for as much as 30% of the body's total protein. It is a primary structural component of connective tissue. Collagen constitutes 75% of skin, 70% of ligaments, 65% to 80% of tendons, 50% of cartilage, 30% of tooth dentin, 16% of bone, 10% to 11% of muscle, and it is also part of the structure of arteries and veins. The amino acid

composition of dietary collagens is very similar to those in human collagens, making dietary collagen peptides ideal for supporting body collagen turnover and renewal. These processes are continual, so it's important to ensure the body has enough raw materials to build healthy new tissue.

Collagen proteins are rich in amino acids, hydroxyproline, glycine, and proline. Although other dietary proteins can provide these, collagen is a more concentrated source, which may play a role in supporting the strength and flexibility of bones, tendons, and cartilage, the appearance of skin and nails, and gastrointestinal tract health. Supplementing with collagen peptides, such as those found in Whole Body Collagen, may support healthy aging, skin, joints, bones, and muscles.

Benefits

- Helps to reduce joint pain associated with osteoarthritis
- Supports healthy bones
- Supports healthy skin appearance and integrity
- Supports healthy joints

Recommended Dose

Adults: Mix 1 scoop (10 g) with eight ounces of water per day, or as directed by your health care practitioner. For best results, add powder prior to adding water. For joint pain, use for at least 5 months to see beneficial effects.

Highlights

- A synergistic blend of three patented collagen peptides
- Flavourless with no added sweeteners, making it easy to add to any beverage or shake
